

QUALITY POLICY

At Seaforce, our commitment to quality and to our customers is fundamental to our business success.

As a client-focused company employing skilled professionals, our principal objective is to consistently deliver best practice, practical engineering solutions and project management services.

We will develop a clear understanding of our client's requirements, ensuring each task is properly resourced by qualified and experienced people.

We strive for continuous improvement. We measure performance and make adjustments to improve our performance and improve customer satisfaction. We critically examine internal processes seeking efficiencies and better outcomes wherever we can and to ensure they remain relevant to our business.

We pride ourselves on our professionalism, integrity and fairness and work towards creating a healthy, safe, equitable and harmonious work environment where all of our people can enjoy the opportunity to contribute positively to the company's success.
