

WORK HEALTH & SAFETY POLICY

Central to the culture of Seaforce is a commitment to the health and safety of all people who work for the company. This also extends to ensuring our operations do not expose our clients, suppliers or anyone else visiting our workplaces to the risk of injury, illness or property damage.

Seaforce will:

- Afford health and safety priority over other objectives;
- Provide and maintain safe workplaces, systems, plant and equipment;
- Provide supervision, information, training and inductions to ensure our people are safe at work; and
- Comply with relevant laws, standards and regulations while aspiring to exceed these where possible.

Our workers must:

- Take responsible care for their own health and safety, and ensure their acts or omissions do not adversely affect the health and safety of others in the workplace;
- Follow reasonable instructions given to protect their health and safety;
- Identify and report any workplace incidents, near misses or hazards to their supervisor.

Seaforce recognises the success of this policy relies upon commitment and it is the responsibility of all individuals to achieve a healthy and safe workplace.
