

ENVIRONMENTAL POLICY

Seaforce is committed to promoting ecologically sustained thinking throughout every aspect of its business with the ultimate objective of zero harm to the environment.

Seaforce provides engineering support and project management services to our clients in a manner that complies with all applicable environmental regulations, demonstrating through sound management practices that we care for the environment and the prevention of pollution.

Seaforce will:

- Operate the business to the environmental systems required by MARPOL, ISO 14001 and other environmental management systems;
- Continually improve our environmental performance by setting objectives, actions and targets
- Work cooperatively with our clients, communities and regulatory authorities to implement sound management practices to comply with and exceed current industry standards;
- Minimise waste, promote recycling and review approved suppliers and materials for environmental benefits;
- Provide appropriate plant and systems of work to minimise environmental contamination;
- Provide written procedures and instructions to ensure appropriate systems of work; and
- Provide information, instruction, training and supervision to employees, contractors, customers and special personnel as required to ensure environmental sustainability

Our workers must:

- Take responsible care for their environment, and ensure their acts or decisions do not adversely affect the environment;
- Follow reasonable instructions given to protect the environment; and
- Identify and report any workplace incidents, near misses or hazards to their supervisor.

SEAFORCE

ABN 21 131 677 515

Seaforce recognises the success of this policy relies upon commitment and it is the responsibility of all individuals to achieve a sustainable workplace and environment for current and future generations.

A handwritten signature in black ink, reading 'Aaron Young'. The signature is fluid and cursive, with a large initial 'A'.
